Silarius Cloud plans

2026 price list · USD · silariussecurity.com

Cloud video recording per camera. Pick the video quality and bit rate, how long video is kept, and add AI analytics where you need it. Works with Silarius X cameras (straight to the cloud) and with the cameras you already own through the Silarius Gateway.

720p High Bitrate	720p (1280x720), 12 fps, 6 months of video, 6 hours of clips	**Up to 2,000 kbit/s**	**$125.99** per camera / month
Pay as you go	For large or variable sites: pay for what you store and stream	**Any bit rate**	**$159.99** per TB stored / month, plus $159.99 per TB of traffic
Pay as you go + AI analytics	Pay as you go with the Advanced AI package on every camera	**Any bit rate**	**$189.99** per TB stored / month, plus $159.99 per TB of traffic

Every plan includes: web, iOS and Android apps · alerts by email and push · secure clip sharing · multi-site dashboard and user roles · camera-side ONVIF analytics managed in the cloud · US-based support.

Live monitoring: trained operators watch any camera system at night, on weekends or 24/7, from $69.99 per camera per month. See page 4.

Connecting cameras: Silarius X connects directly, no Gateway. Other ONVIF cameras use the Silarius Gateway, $299.99 one-time, up to 50 cameras. 1080p plans keep video up to 3 years; 720p up to 1 year.

Prices per camera per month unless noted. No commitment: cancel monthly plans with 1 month notice. Yearly saves 10%, non-refundable once started. Prices may change.

Silarius Cloud

AI add-ons and monitoring

2026 price list · USD · silariussecurity.com

Add-ons are priced per camera per month and go on top of a Silarius Cloud plan. Advanced AI extensions need the Advanced AI Package on that camera.

AI-POWERED ANALYTICS

Add AI to any camera on Silarius Cloud, camera by camera.

Camera-side analytics	Manage the ONVIF analytics that come standard with your cameras, and configure them remotely in the Silarius Cloud portal.	**Included with every plan**
Core Cloud Analytics	Server-side object detection and classification: person, car, animal and more.	**$10.00** per camera / month
Advanced AI Package	Server-side AI on top of your camera analytics: object detection, classification, tracking, people counting, heat maps, and area and color search. Set precise rules for people, cars, animals and more to improve accuracy and cut false alerts. • **Behavioral analytics for loitering detection** (included): State-of-the-art object tracking and detection, a 98% improvement over motion-based analytics. Only relevant events reach you. • **AI video rule engine** (included): Stack several analytics per camera or zone (PPE, loitering, vehicles, intrusion) in one rule, schedule them (trespassing alerts after 6 PM, PPE checks in work hours) and link them to actions: a talk-down message on an IP speaker, clips to managers, or escalation to security.	**$16.00** per camera / month

ADVANCED AI EXTENSIONS

Available on cameras that have the Advanced AI Package.

Hard hats and safety vests (PPE)	Detect personal protective equipment, or missing PPE, with alerts. Spot unauthorized people on a guarded site or missing PPE in a factory.	**$8.00** per camera / month
Gun detection	Real-time firearm detection with instant alerts when a weapon is seen.	**$8.00** per camera / month
License plate recognition (LPR)	Detect and read license plates on all vehicles, with flexible streaming and alerts (up to 50,000 detections). **New (beta): advanced plate search with wildcards and AND / OR logic, for example plates that start with CFB or DFB, end in 54 and have a 3 in between. Ideal when only part of a plate is known.**	**$48.00** per camera / month
Fire and smoke detection	See fire and smoke where sensors cannot: generators, power cables, parking lots and construction sites.	**$24.00** per camera / month
Face recognition	Recognize people from your own list of faces, with alerts and clips for each match.	**$60.00** per camera / month

Prices per camera per month unless noted. No commitment: cancel monthly plans with 1 month notice. Yearly saves 10%, non-refundable once started. Prices may change.

Silarius Cloud

Monitoring tools and extras

2026 price list · USD · silariussecurity.com

MONITORING TOOLS

For security operations centers, integrators, guard services and monitoring stations.

Silarius NextGen Video Monitoring Portal	A cloud platform for live video monitoring: faster, consistent and secure event handling, with built-in text-to-speech that breaks language barriers. **Volume pricing: $10 per camera per month from 1,000 channels.**	**$12.00** per camera / month
1-day streaming data plan + Monitoring Portal	For sites with few events (for example indoor monitoring) where the camera's own analytics are enough. Needs ONVIF Profile M. Includes 1 day of HD cloud video.	**$16.00** per camera / month
1-day streaming data plan + Monitoring Portal + Advanced AI	The Monitoring Portal with cloud AI: detection, classification, tracking, people counting, heat maps, smart search, loitering detection and the rule engine. Includes 1 day of HD cloud video.	**$24.00** per camera / month
7-day Lite data plan + Monitoring Portal + Advanced AI	The same, with 7 days of HD cloud video included.	**$27.70** per camera / month
AI Monitoring Operator	Fewer nuisance alarms, faster verification and better dispatch. The AI operator organizes and prioritizes activity across sites so operators focus on what matters. • **AI automation workflows** (included): Set rules once and let the system handle routine work: person detected → talk-down message → person loiters 30 seconds → operator dispatches guards.	**$60.00** per camera / month
VoIP phone service	Operators, site managers and supervisors make and receive calls inside the portal. You can also use your own VoIP service.	**$60.00** per phone number

MORE ADD-ONS

Extras for construction, marketing and public views.

Long-term time lapse	Export long-term time-lapse progress on demand, remotely. Most popular for construction projects.	**$100.00** per camera / month
Broadcasting widget	Embed one camera feed on your website for up to 2,500 viewers at once, with timeline and events for easy playback. Storage and streaming are billed separately.	**$10.00** per camera / month

HARDWARE · REQUIRED UNLESS USING THE SILARIUS X MODELS

One-time price per unit

Silarius Gateway	Plug-and-play: connects your existing cameras to Silarius Cloud over secure HTTPS (port 443). No port forwarding and no public IP. One Gateway serves up to 50 cameras. Added automatically with a Cloud plan.	**$299.99 one-time**
Silarius Gateway V2	Industrial edge-AI gateway for up to 200 cameras. Cuts bandwidth by up to 80% so 4K cameras run even on weak connections such as mobile surveillance trailers. Built-in 4G LTE and GPS, dual Gigabit failover, 2TB SSD for video when the connection drops, integrated router and a live health dashboard.	**$899.99 one-time**

Prices per camera per month unless noted. No commitment: cancel monthly plans with 1 month notice. Yearly saves 10%, non-refundable once started. Prices may change.

Silarius Live Monitoring

2026 price list · USD · silariussecurity.com

Trained operators watch your cameras live, warn intruders off through your speakers and call the police while it is happening. A separate service that works with **any camera system**: NVRs, DVRs and IP cameras of any brand, or Silarius Cloud. AI-verified monitoring runs on Silarius Cloud.

Plan	Nights 84 hours a week	Nights + weekends 108 hours a week	24/7 168 hours a week
AI-verified monitoring Most popular For cameras on Silarius Cloud. Cloud AI checks every alert first.	**$79.99** per camera / month	**$89.99** per camera / month	**$119.99** per camera / month
Standard monitoring For any camera system: NVR, DVR or IP cameras, any brand.	**$69.99** per camera / month	**$79.99** per camera / month	**$109.99** per camera / month

$99.00 one-time setup per site
Site instructions, call list and camera zones

No contract
Month to month, cancel with 1 month notice

$0 at checkout
Billed monthly once your site is set up

20% off over 30 cameras
More than 30 monitored cameras: every camera 20% off, every plan and hours

Example
4 outdoor cameras, AI-verified Nights: 4 × $79.99 = $319.96/month + $99.00 setup

Monitored hours

Nights · 84 hours a week
12 hours every night, 7 nights a week (e.g. 7 pm to 7 am).

Nights + weekends · 108 hours a week
12 hours every weeknight, plus the whole weekend, Friday evening to Monday morning.

24/7 · 168 hours a week
24 hours a day, 7 days a week.

AI-verified monitoring

Cloud AI checks every alert first, so operators only see real people and vehicles. For cameras on Silarius Cloud.

- Cloud AI on every monitored camera: people, vehicles and loitering
- Rules per camera, zone and schedule
- Automatic warnings: play a recorded message the moment someone enters
- Far fewer false alarms from animals, shadows, headlights and rain
- Best for outdoor areas, yards, lots, sites and busy properties
- 24 hours of cloud video on every monitored camera

Standard monitoring

For any camera system: NVR, DVR or cloud, any brand. Operators respond to the motion alerts your system already sends.

- Works with the system you have: NVRs, DVRs and IP cameras of any brand
- Uses the motion and line-crossing detection built into your cameras or recorder
- Video keeps recording where it does today
- Best for indoor spaces and quiet sites with few events
- Move cameras to Silarius Cloud any time for AI-verified monitoring

Included in every plan

Trained operators A professional monitoring center reviews each alert on live video, not just a snapshot.

Police with video proof When it is real, operators call the police and tell them what they are seeing, while it is happening.

Incident reports Every event is logged with the clips, what the operator saw and what they did.

Your schedule Monitoring runs in the hours you pick. Holiday or event cover can be added on request.

Live talk-down Operators speak through your camera or IP speaker to warn people off before damage is done.

Your call list You decide who gets called and in what order: you, a manager, your guard company or a key holder.

Any camera system NVRs, DVRs, IP cameras of any brand or Silarius Cloud. We connect the monitoring center to the system you already have.

Your video, your app Keep watching and reviewing in the app you use today. Silarius Cloud customers see every event in the Silarius Cloud portal and app.

Works with every camera system

Silarius Cloud cameras
Silarius X, or your IP cameras through the Silarius Gateway.
AI-verified or Standard

NVR systems, any brand
Keep your network video recorder. We connect the monitoring center to it.
Standard

DVR and analog systems
Older analog or HD-over-coax cameras on a DVR can be monitored too.
Standard

IP cameras, any brand
Add the Silarius Gateway to move them to Silarius Cloud and unlock AI-verified monitoring.
AI-verified or Standard

Talk-down hardware: Silarius IP horn speaker (SILIPSHPOE)
SIP, PoE, no license needed. Operators speak through it to warn people off. About one per 4 outdoor cameras. Cameras with a built-in speaker also work.

$349.99
one-time, per unit

Prices per monitored camera per month. One-time setup $99.00 per site. More than 30 cameras: 20% off every camera. No contract: cancel with 1 month notice. Billed monthly, separately from Silarius Cloud plans. Prices may change.
